Motion-Triggered Alarm

BionicMind™ Empowers Your Devices

BionicMind™ differentiates between family and strangers with facial recognition to filter alerts up to 99.9%.

Expandable Local Storage

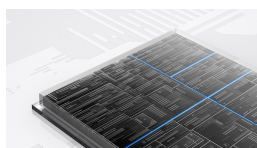

Store a lifetime of videos on HomeBase 3 with up to 16TB of expandable storage on a portable hard drive.

Link Your eufy Security Devices Together

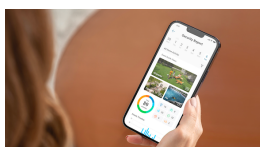

Manage your entire security ecosystem from one central location with HomeBase 3.

HomeBase 3 will be compatible with all eufy Security devices by Dec. 2023.

Advanced Encryption Protects Your Privacy

Your data stays private and under your control with AES-128 + RSA-1024 advanced encryption.

Get Daily Security Briefings

Receive a customized security report on your schedule with BionicMind™ giving you important info ahead of time to take action.

Motion-Triggered Alarm

HomeBase 3 wards off unwelcome guests using an integrated 100dB alarm siren which can be triggered by motion from connected eufy Security devices.
